

**\$32 million**  
For Endowment Growth

Our remarkable commitment to educational access is rooted in our school's mission and values.

### FINANCIAL AID

A transformational Catholic education at Cathedral costs \$20,000 annually. We are able to cap tuition at \$7,000 per year because every student receives scholarship support that is generously provided by Cathedral High School and the AASF. Nearly all of our students receive additional financial aid based on their families' income, such that the average annual financial aid award totals \$18,000 per student.

# SUSTAINING

### Endowment Growth

- **Establish long-term funding** through the expansion of Adopt-A-Student Foundation personalized endowments to provide need-based scholarships and support operations into perpetuity.
- **Expand the financial aid model** to meet additional needs of all qualified students, regardless of how great the need.
- **Maintain small class sizes** while growing enrollment to allow for individualized instruction and a personal feel in our classrooms.
- **Promote a culture of achievement** for all students to reach their full potential in high school, college and life.

### ALUMNI SUCCESS

**Andreen Gilpin**

Cathedral Class of 1998  
Athletic Hall of Fame Member  
Boston Scientific  
Principal Quality System Engineer

"My time at Cathedral was the best time ever, and we were not even as expanded then as the school is now with the addition of the gym and the Applied Learning Center. The sense of community and safe, family feel made my time in high school the best years of my life, and those are the qualities that I still see as a Cathedral parent. I didn't want to force my experience on my son, Kaleel, and even though things change over time, the discipline, Catholic education and STEAM program are what made Cathedral stand out among ten other options he considered. He ultimately made Cathedral his top choice as well."
